

# COMPASS

Exclusive Customer Portal

**DRILLING TOOLS**<sup>®</sup>  
INTERNATIONAL

**Drilling Tools has simplified the process of ordering and reordering products with COMPASS, our exclusive Customer Order Management Portal and Support System.**

## Secure Customer Interactive Gateway

Registered customers can look up the tools they need, place an order, check on its status, and keep track of previous orders – all in one place without having to deal with emails, phone, or fax. Direct ordering through Compass can expedite the ordering process while avoiding miscommunication. The site also offers an advanced search feature by type, connection, diameter, and other variables.

## COMPASS Advantages

- |  |   |
|--|---|
| ✓ Easy-to-access attributes to product lines | ✓ Advanced search feature   |
| ✓ Place orders and check on their status     | ✓ Simple repeat order placement   |

| ✓ Ability to revise active tool orders       | ✓ Accessible on both laptop and mobile devices                                |
| ✓ Bookmark favorites                         | ✓ Optional email notification for orders received, ready to ship, and shipped |

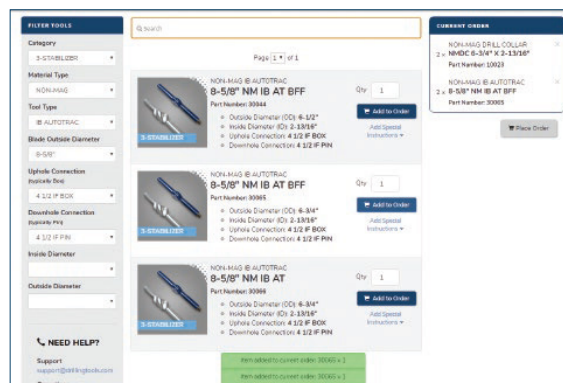

**To register for access to COMPASS, contact your Drilling Tools sales representative.**

**Strength. Innovation. Performance.**

## COMPASS Features

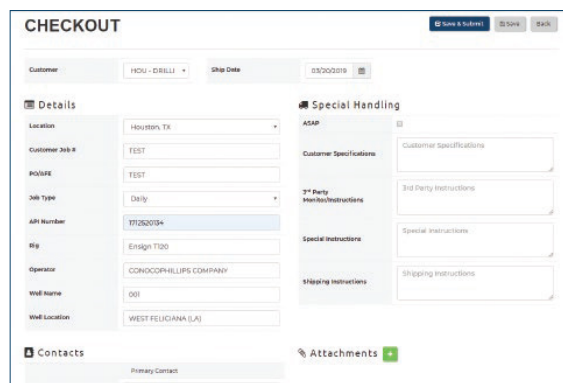

### Catalog Screen

The Compass Catalog Screen allows the user to search the tool catalog and place selected items in a dedicated shopping cart. The side menu includes filters to find specific tools. Once the tool is identified, it can be added to the cart by clicking on the Add to Order button. Compass keeps a running total of tools that have been added to the cart on the right side of the screen. Once all selections are made, click the Place Order button under Current Order.

### Checkout Screen

The Checkout Screen allows the user to add the ship date, header information, and special notes/instructions, as well as include attachments. By entering an optional API Number, Compass will automatically populate Rig, Operation, Well, and Location fields. The user can also manage their contact information to get updates on the order progress.

### Order Screen

The Order Board is a quick look at the status of the customer requisitions. From here the user can check status and details of both past and current orders. In the Order view, the user can edit, repeat an order, or add it to their Favorites list.

Order #	Status	Order Date	Customer	Job #	Operation	Rig	Well	Estimated Ship Date	3rd Party Inspection	Special Instructions	Shipping Instructions	Tools Returned
38862	New	03/16/2019	Test Account	TEST	CONOCOPhillips COMPANY	Ensign T120	001	03/20/2019	No	No	No	0 of 4

### Favorites Screen

This screen displays the user's pre-selected favorite orders. By clicking on the Order Number, the user can easily reorder the tools. This is a time-efficient feature for repeat tool requisitions. Please note that the header information must be filled out each time.

Order #	Status	Order Date	Customer	Job #	Operation	Rig	Well	Estimated Ship Date	3rd Party Inspection	Special Instructions	Shipping Instructions	Tools Returned
38862	New	03/16/2019	Test Account	TEST	CONOCOPhillips COMPANY	Ensign T120	001	03/20/2019	No	No	No	0 of 4
